**"It takes a community
to grow a company"**

- Community first
- The right workplace for you
- A home for entrepreneurs

Become a Docker.

Get in contact with like-minded entrepreneurs.

At StartDock, you are not alone. Every day we nourish a unique mix of like-minded entrepreneurs who reinforce each other during the challenging entrepreneurial journey.

That is who we are and what we care about. Our brand promises are intertwined in StartDock.

Community

At StartDock, we believe it takes a community to grow a company. We create coworking spaces where entrepreneurs strengthen each other by sharing knowledge, skills and their network. We build bridges between Dockers by organizing inspiring events, answering entrepreneurial questions and by endorsing business contacts. This is how we move forward together.

The right workplace

A pleasant workplace in a vibrant working environment. That's what we offer the StartDock community. Our coworking spaces have been carefully selected by location and identity. We can match your style of business to our style of the workplace and offer the right type of office space or desk to you.

Home

As a coworking space, we offer our community new opportunities and help implementing ideas and initiatives. We are always looking for a healthy mix of entrepreneurs in our coworking spaces. Entrepreneurs who use their expertise to create value for other people from the community. This is how Dockers complement each other. At the same time, we build a safe haven for entrepreneurs.

Our location.

Located in the Scheepvaartkwartier of Rotterdam.

Westplein 12

This location has a tight community of companies, which are widely specialized and help each other grow to unprecedented heights. We offer flex desks, dedicated workspaces as well as private offices for companies with two employees or more.

This location has a lot of natural daylight and a balcony for you to have a break during your workday as well as private parking.

Always up for a chat, ready to help you with all you need.
